

GENERATOR DOCKING STATION

POWER DISTRIBUTION

The Power Assemblies Generator Docking Station is a high-quality, low-cost unit with a camlock quick connection system. The Generator Docking Station is used in conjunction with a transfer switch to provide a convenient, quick connect option for emergency power. The mini, standard, and large system configurations allow for numerous wiring possibilities to fit customer and building requirements.

APPLICATIONS

- Hospitals
- Data Centers
- Airports
- Emergency Applications

BENEFITS

- Spatial efficiency
- Lockable
- Pad-Mounted Large GDS option
- Wall-Mounted Standard & Mini options
