

TURNAROUND CABLE ASSEMBLIES

Overview

Power Assemblies turn around cable assemblies provide customers a clean, safe and easy way to step up or down cable and connector sizes for portable power applications that use camlock connections. The cables are made from stage cable (Type SC) and the inline camlocks are either Series 16 or Series 15. The turnarounds come in standard lengths of 3, 5, and 10 feet.

Features and Benefits

- 150A Maximum Current Rating
- Outdoor Rated
- Flexible Cable
- Camlock connector
- Stepping Up or Down Cable and Connector Sizes in Portable Power Applications that use Camlock Connections
